

*It is the mission of The Harold J. Becker Company, Inc. to deliver the absolute best possible quality product at the most efficient cost to our clients, while providing for our employees an environment which gives them an opportunity to achieve a standard of living consistent with their choice of lifestyle for their families.*

*Our customers and employees have the right to ask and expect positive answers to the following three questions:*

- 1. Can I trust you?*
- 2. Do you care about my project and/or concerns?*
- 3. Are you committed to providing the absolute best quality product?*

---

## *The Harold J. Becker Company - Providing Quality Service*

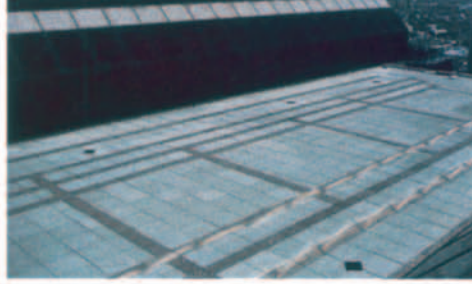

*Since 1949, The Harold J. Becker Company has provided quality moisture protection services to commercial and industrial customers in the private sector, as well as municipalities, counties, state and federal agencies.*

*We offer a complete line of services, such as: roofing and sheet metal, waterproofing and dampproofing, roof maintenance programs, caulking and masonry restoration.*

*The Harold J. Becker Company serves customers in Ohio, Indiana, Kentucky, Illinois, Michigan, West Virginia, Pennsylvania and Tennessee.*

*Because we are not directly affiliated with any single manufacturer, we have the flexibility to work with our customers to find the best and most cost-effective system for their particular needs and applications.*

---

## *Roofing and Sheet Metal*

*The Harold J. Becker Company uses the latest in roofing materials. This allows our customers the choice of roofing systems to address the expansion and contraction problems of today's light-weight construction technology. In addition to conventional built-up of roofing systems, we provide new elasto-plastic systems which encompass; elastomers (rubber), plastomers, thermo set, reinforced modified asphalt, and inverted roof membrane assembly systems.*

*Our sheet metal fabrication facilities and skilled and knowledgeable craftsmen use a broad range of state-of-the-art equipment. This combination of technology and experience insures that our clients receive the best sheet metal applications possible.*

*The Harold J. Becker Company maintains licensed applicator agreements with the major manufactures of roofing systems, offering 10, 15 and 20 year labor and material warranties. In addition to the manufacturers, The Harold J. Becker Company has an established reputation for standing behind its workmanship.*

### **American Electric Power Building, Columbus, Ohio**

*Terrace waterproofing and parking garage roof utilizing conventional 5 ply coal tar pitch with glass and organic felt reinforcement along with a ballasted EPDM system.*

### **American Electric Power Building, Columbus, Ohio**

*Illustrates graphic pattern of aggregate ballast by use of aluminum rails and 2 colors of local aggregate.*

---

## *Caulking and Restoration*

*Caulking and sealant materials available today are more resilient and provide better weatherability than conventional mortar. The Harold J. Becker Company keeps abreast of the latest materials and techniques in this rapidly expanding industry and uses only those which will achieve the best seal for each application.*

*The Harold J. Becker Company provides you, your architects and general contractors complete consultation service on sealant needs and problems...and experienced craftsmen to perform the actual sealant work on the job site.*

*A full line of masonry restoration services is available to renew the beauty of your building and increase its lifespan. We remove hydrocarbons and other damaging chemicals, tuckpoint loose and deteriorating mortar joints, caulk perimeter of building openings, and completely check and re-caulk wall flashings and flashing reglets to restore buildings to a "like-new" condition.*

**County Court House, Xenia, Ohio**  
*Twelve year old masonry restoration project involving cleaning, tuckpointing, and sealing of building following extensive tornado damage.*

---

## *Special Sheet Metal*

*It takes skill, experience, and proper equipment to turn out high quality precision specially sheet metal work. At The Harold J. Becker Company, we pride ourselves on our craftsmen and their talents.*

*Specially sheet metal jobs often require as much attention to appearance as they do to function. The beautiful lines of fine architecture or interior design require skilled hands of experienced sheet metal professionals to achieve the desired results. Let our knowledge, skill and experience help to enhance or maintain the integrity of your new or existing design.*
